

MyPatients

INTRODUCING THE MYPATIENTS APPLICATION

THE ONE TOOL EVERY PRACTICE SHOULD HAVE.

THE MYPATIENTS APP WILL REPLACE THE PATIENT TILE AND MEMBER SITE. DOCTORS WILL NEED THE APP TO ACCESS PATIENTS' INFORMATION. TO ADHERE TO THE DATA PRIVACY REQUIREMENTS, THERE ARE SEPARATE ACCESS LOGINS FOR DOCTORS AND PRACTICE MANAGERS.

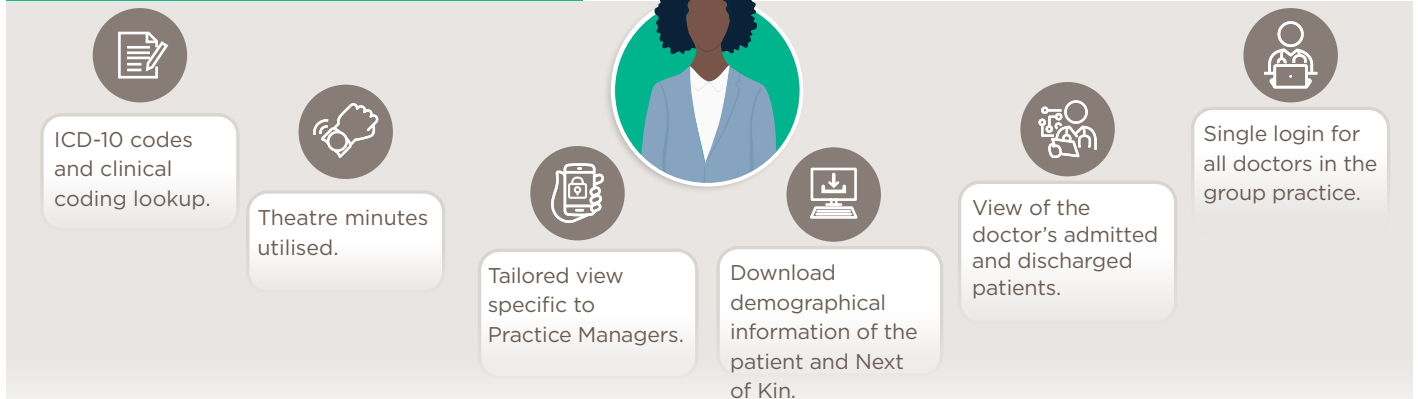

FUNCTIONS FOR DOCTORS

This infographic features a central circular icon of a male doctor in a white coat. Surrounding this icon are eight callout boxes, each with an icon and a text description of a function available to doctors in the app.

- Add an ICD-10 diagnosis to the patient's record.** (Icon: Document with checkmark)
- A view of admitted patients and their location.** (Icon: Person with location pin)
- A view of patients admitted across all Mediclinic hospitals (where applicable).** (Icon: Location pin)
- Access to Clinical Viewer containing past admission information.** (Icon: Microscope)
- Access to view Theatre List. Two-week history, and two weeks in advance.** (Icon: Document with list)
- Search for a patient, and add to the care team.** (Icon: Magnifying glass)
- Refer a patient to another specialist.** (Icon: Two people)

FUNCTIONS FOR PRACTICE MANAGERS

This infographic features a central circular icon of a female practice manager in a blue blazer. Surrounding this icon are seven callout boxes, each with an icon and a text description of a function available to practice managers in the app.

- ICD-10 codes and clinical coding lookup.** (Icon: Document with checkmark)
- Theatre minutes utilised.** (Icon: Hand holding a clock)
- Tailored view specific to Practice Managers.** (Icon: Smartphone)
- Download demographical information of the patient and Next of Kin.** (Icon: Download arrow)
- View of the doctor's admitted and discharged patients.** (Icon: Doctor with patient)
- Single login for all doctors in the group practice.** (Icon: Group of people)
