

MyPatients

YOUR PRACTICE MADE PERFECT THANKS TO MYPATIENTS APP

THE EASY-TO-USE MYPATIENTS APPLICATION FOR SMART DEVICE OR PERSONAL COMPUTER IS REPLACING THE PATIENT TILE AND MEMBERS' SITE.

The app has been tailored to the convenience of healthcare practitioners and practice staff.

The MyPatients app features include the following:

- Access on the go. Useful information at your fingertips with a mobile and web app.
- Clinical viewer gives healthcare practitioners access to clinical past hospitalisation from all Mediclinic hospitals.
- Ability to refer and search for a patient in app.
- View of patient's location, demographic and medical aid details.
- Group practice staff will have a single login and access to all healthcare practitioners within the practice's patient information.
- Doctors have the ability to contribute towards the patient's diagnosis.
- Collaborative care - receive and send non-urgent referrals to other healthcare practitioners using the application.

REGISTER FOR THE MYPATIENTS APP

New healthcare practitioners and practice staff:

- Contact your DRM for registration; or
- Scan the QR code to log in.

To log in,
scan the QR code.

You can now access the **Mother and Baby collaborative SASOG guidelines** on mypatients.mediclinic.co.za

EXPERTISE YOU CAN TRUST.
